## Aims and Scope

*Research and Practice in Thrombosis and Haemostasis* (RPTH) is the newest journal of the International Society on Thrombosis and Haemostasis (ISTH) and the newest journal in the field of thrombosis and hemostasis. Complementing its flagship journal, the *Journal of Thrombosis and Haemostasis* (JTH), RPTH provides a dedicated Open Access home for science and discourse among researchers, clinicians, nurses, allied health professionals, and patients.

RPTH is a "living journal" and serves as a jumping point for digital discussion. It also reflects the current era of inter-disciplinary scientific discovery and new methods of knowledge dissemination and the wide reach of ISTH by featuring articles from all corners of the globe. RPTH provides rigorous, rapid peer review and immediate dissemination of research reports from basic, clinical, translational and population or public health science. The Journal is interested in quality, outcomes, dissemination and implementation science, seeking studies and trials on novel care delivery, including in areas of resource constraint around the world.

 Digital discussion is encouraged through the dedicated Twitter account: @RPTHJournal and can be found with the hashtag #RPTH

## Open Access and Copyright

All articles published by *Research and Practice in Thrombosis and Haemostasis* are fully open access: immediately freely available to read, download, and share. All *Research and Practice in Thrombosis and Haemostasis* articles are published under the terms of the Creative Commons Attribution-NonCommercial-No Derivs license ("CC-BY-NC-ND"), which permits users to copy, distribute, and transmit an article as long as the author is attributed, the article is not used for commercial purposes, and the work is not modified or adapted in any way. An exception is made for Contributors funded by agencies requiring use of a Creative Commons Attribution license ("CC-BY") which permits others to use, distribute, reproduce, remix, tweak, and build upon the work in any medium (even commercially) as long as the Contribution is credited for the original creation. Such funders include the Research Councils UK, the Wellcome Trust and other funders recognized by the Publisher as requiring a CC-BY license, who may publish their Contributions under a CC-BY license.

Copyright on any research article published by *Research and Practice in Thrombosis and Haemostasis* is retained by the author(s). Authors grant Wiley a license to publish the article and identify itself as the original publisher.

Further information about open access license and copyright can be found at: <http://www.wileyopenaccess.com/details/content/12f25db4c87/Copyright--License.html>.

## Contact Details

*Research and Practice in Thrombosis and Haemostasis* is published by Wiley Periodicals, Inc., 101 Station Landing, Suite 300, Medford, MA 02155, USA.

# Research and Practice in Thrombosis and Haemostasis

Volume 2 • Issue 4 • October 2018

## Editorial

- 620 Diversity and inclusion in a new medical journal: Advancing science in the 21st century  
*Mary Cushman*

## Review Articles

- 622 Cancer-associated thrombosis: The search for the holy grail continues  
*Betül Ünlü and Henri H. Versteeg*
- 630 Genomics and transcriptomics of megakaryocytes and platelets: Implications for health and disease  
*Marlie H. Fisher and Jorge Di Paola*

## Methodological Article

- 640 A comprehensive targeted next-generation sequencing panel for genetic diagnosis of patients with suspected inherited thrombocytopenia  
*Ben Johnson, Rachel Doak, David Allsup, Emma Astwood, Gillian Evans, Charlotte Grimley, Beki James, Bethan Myers, Simone Stokley, Jecko Thachil, Jonathan Wilde, Mike Williams, Mike Makris, Gillian C. Lowe, Yvonne Wallis, Martina E. Daly, and Neil V. Morgan, on behalf of the UK GAPP Study Group*

## Tutorials

- 653 Impact of your results: Beyond the relative risk  
*Bob Siegerink and Jessica L. Rohmann*
- 658 Meta-analysis: Key features, potentials and misunderstandings  
*Olaf M. Dekkers*

## Original Articles: Thrombosis

- 664 Management of anticoagulation for cancer-associated thrombosis in patients with thrombocytopenia: A systematic review  
*Bethany R. Samuelson Bannow, Agnes Y. Y. Lee, Alok A. Khorana, Jeffrey I. Zwicker, Simon Noble, Cihan Ay, and Marc Carrier*
- 670 Serial imaging after pulmonary embolism and correlation with functional limitation at 12 months: Results of the ELOPE Study  
*Kim A. Ma, Susan R. Kahn, Arash Akaberi, Carole Dennie, Christopher Rush, John T. Granton, David Anderson, Philip S. Wells, Marc A. Rodger, Susan Solymoss, Michael J. Kovacs, Lawrence Rudski, Avi Shimony, Paul Hernandez, Shawn D. Aaron, Elena Pena, Gad Abikhzer, and Andrew M. Hirsch, for the ELOPE Study group*
- 678 Systematic review of fondaparinux for heparin-induced thrombocytopenia: When there are no randomized controlled trials  
*Lori-Ann Linkins, George Hu, and Theodore E. Warkentin*
- 684 Peak plasma concentration of direct oral anticoagulants in obese patients weighing over 120 kilograms: A retrospective study  
*Siavash Piran, Hugh Traquair, Noel Chan, Vinai Bhagirath, and Sam Schulman*
- 689 Measurement of coagulation factors during rivaroxaban and apixaban treatment: Results from two crossover trials  
*Luuk J. J. Scheres, Willem M. Lijfering, Saskia Middeldorp, Yuk W. Cheung, Stefano Barco, Suzanne C. Cannegieter, and Michiel Coppens*
- 696 Comparison of antithrombin-dependent and direct inhibitors of factor Xa or thrombin on the kinetics and qualitative characteristics of blood clots  
*Stella Salta, Loula Papageorgiou, Annette K. Larsen, Patrick Van Dreden, Claire Soulier, Dennis V. Cokkinos, Ismail Elalamy, and Grigoris T. Gerotziakas*

- 708 In silico thrombin generation: Plasma composition imbalance and mortality in human immunodeficiency virus  
*Kathleen E. Brummel-Ziedins, Matthew Gissel, Jacqueline Neuhaus, Álvaro H. Borges, David R. Chadwick, Sean Emery, James D. Neaton, Russell P. Tracy, and Jason V. Baker, for the INSIGHT SMART, ESPRIT Study Groups*
- 718 Adrenaline enhances in vitro platelet activation and aggregation in blood samples from ticagrelor-treated patients  
*Sukhi Singh, Carl Johan Malm, Sofia Ramström, Camilla Hesse, and Anders Jeppsson*
- 726 Indoleamine 2,3-dioxygenase 1 in coronary atherosclerotic plaque enhances tissue factor expression in activated macrophages  
*Yuki Watanabe, Shohei Koyama, Atsushi Yamashita, Yunosuke Matsuura, Kensaku Nishihira, Kazuo Kitamura, and Yujiro Asada*
- 736 Analysis of procoagulant phosphatidylserine-exposing platelets by imaging flow cytometry  
*Emily C. Reddy, Hong Wang, Hilary Christensen, Eileen McMillan-Ward, Sara J. Israels, K. W. Annie Bang, and Margaret L. Rand*
- 751 Protein S K196E mutation reduces its cofactor activity for APC but not for TFPI  
*Keiko Maruyama, Masashi Akiyama, Toshiyuki Miyata, and Koichi Kokame*

### **Original Articles: Haemostasis**

- 757 Salivary tissue factor induces thrombin generation in a diurnal rhythm  
*Lisa N. van der Vorm, Joost E. I. G. Brouwers, Ceráya Mondria, Bas de Laat, Philip G. de Groot, and Jasper A. Remijn*
- 762 Differences in von Willebrand factor function in type 2A von Willebrand disease and left ventricular assist device-induced acquired von Willebrand syndrome  
*Shannen Deconinck, Claudia Tersteeg, Els Bailleul, Leen Delrue, Nele Vandeputte, Inge Pareyn, Nathalie Itzhar-Baikian, Hans Deckmyn, Simon F. De Meyer, Marc Vanderheyden, and Karen Vanhoorelbeke*
- 767 Preoperative screening for bleeding disorders: A comprehensive laboratory assessment of clinical practice  
*Minka J. Vries, Paola E. van der Meijden, Gerhardus J. Kuiper, Patricia J. Nelemans, Rick J. Wetzels, René G. van Oerle, Marcus D. Lancé, Hugo ten Cate, and Yvonne M. Henskens*
- 778 A multicenter study to evaluate automated platelet aggregometry on Sysmex CS-series coagulation analyzers—preliminary findings  
*Sean Platten, Áine McCormick, Musfira Bukht, David Gurney, Ian Holding, and Gary W. Moore*
- 790 Evaluation of a semi-automated von Willebrand factor multimer assay, the Hydragel 5 von Willebrand multimer, by two European Centers  
*Annette E. Bowyer, Karen J. Goodfellow, Holger Seidel, Philipp Westhofen, Francesca Stufano, Anne Goodeve, Stephen Kitchen, and Michael Makris*
- 800 Identification and characterization of novel mutations implicated in congenital fibrinogen disorders  
*Natalie Smith, Larissa Bornikova, Leila Noetzli, Hugo Guglielmone, Salvador Minoldo, Donald S. Backos, Linda Jacobson, Courtney D. Thornburg, Miguel Escobar, Tara C. White-Adams, Alisa S. Wolberg, Marilyn Manco-Johnson, and Jorge Di Paola*
